

CENA PROBE WIDEBAND

IERUS TECHNOLOGIES INC.

PN: CENA-I-PRBA-04

CENA (Compact Electromagnetic Nondestructive Assessment) Probe is a Handheld High Sensitivity RF Probe for Nondestructive Evaluation.

FEATURES

- Ergonomic Handheld Operation
- High Polarization Purity
- Rugged Calibration and Verification Standards
- Simple, Intuitive Graphical User Interface
- Certified for Class I Division II Operation

Specifications

| | |
|---------------------------------------|------------------|
| Frequency | 7-14 GHz |
| Frequency Points | 2-10,000 |
| IF Bandwidth | 100-100,000 Hz |
| Return Loss Dynamic Range | >30 dB |
| Probe Dimensions | ~ 8" x 2.5" x 3" |
| Probe Weight | ~ 1.5 lbs |
| Probe Power and Data Interface | USB |

APPLICATIONS

- Production Line Inspection
- Maintenance Inspection
- Material Measurements
